

CLINA 06K1F Belt.

NEW K1 PATTERN FOR CHOCOLATE INDUSTRY.

- FDA FOOD-QUALITY
- MAXIMUM LONGITUDINAL FLEXIBILITY WORKING WITH KNIFE EDGES.
- RESISTANT TO VEGETABLE AND ANIMAL OILS AND FATS.

K1 positive diamond pattern gives a more attractive finish to the bottom of biscuits and chocolates. Its appropriate design prevents chocolate from becoming incrustated, making the belt easier to clean.

- Biscuit transfer (facilitates product release).
- Chocolate and biscuit bathing outlets.
- Cooling tunnels.
- High longitudinal flexibility (permits small turning diameters).
- Suitable for conveyors with gentle inclines.
